Pension Tracker

Check whether countries in which you work or worked participate in the FYP pension tracker.

Soon, it will be possible to access your personal pension information from Belgium via our Pension Tracker.

Belgium

These countries will follow:

Germany

Netherlands

Sweden

Collect personal pension data via the **FYP Pension Tracker** function and get an insight in your pension situation in different countries and systems.

Progress regarding the Rollout concept and the organization

Rollout concept

- Preparation of a European data model started:
 - Initial workshops on the topic, basic discussion in a smaller circle, goals (NL, B, S, DK, D).
 - Proposal for bottom-up approach taken up by EIOPA

ETS Organization

- ETS association: public/private, scenarios to be presented and concluded in 2022
- Solution for privacy law compliance, relations of data sources to ETS
- Engagement of and exchange among NTSs
- Forum on Pension Communication also includes pension providers and other stakeholders

EIOPA – EC request for TA on PT – public consultation.

- Technical features proposed by ETS project are underlined by EIOPA draft paper on advice
- Call for NTSs to introduce eIDAS compliant authentication method for connection with ETS
- Governance and business model related: EIOPA takes view that both ETS and PTS are public goods – consequences for funding
- Supporting common development of standard for transfer and presentation of data to ETS (European data model)
- PTS/ETS should be non-profit, independent, credible and transparent. A public private partnership provides optimal form. Introduction of a European Forum of NTS and experts on pension communication.
- Support of PensionsEurope in the public consultation
